

iEnvision Corporate Funding

The solution for the management and tracking of requests for charitable donations, sponsorships, and grants

- With the increasing need to provide transparency and alignment in your grant decision making across your global medical teams, you need to be confident that your systems and processes are working for—not against—you
- iEnvision helps you manage your diverse scientific and corporate support portfolio transparently and compliantly
- Envision Pharma Group is an industry leader within the grants area and has been supporting pharmaceutical companies' grant programs since 2008. Our technology solutions are used by 19 out of the top 20 global pharmaceutical companies every day

Adding value to your organization

Save time

Web portal collects all required data at the appropriate time, reducing the need to request or find additional information

Efficient and compliant progression throughout the process

Policy and regulation requirements built into the workflow so that they are satisfied as the grant progresses

Effective high-level project management

Ability to align projects to medical objectives/strategies and report appropriately

Progress projects efficiently

An intuitive menu that changes as the grant progresses – so that you immediately know what needs to be done next

Confidence in compliance with the ability to investigate queries

Documentation of all reviews, reconciliation, and close out processes with a full audit trail of all changes and organizational checks

Ensure all relevant steps in your project are covered from day one

A standardized workflow that can be configured to a company's standard operating procedures (SOPs)

Elimination of redundant programs

Allows local and global visibility into all projects and grantees

Ensure the currency and accuracy of your reported information

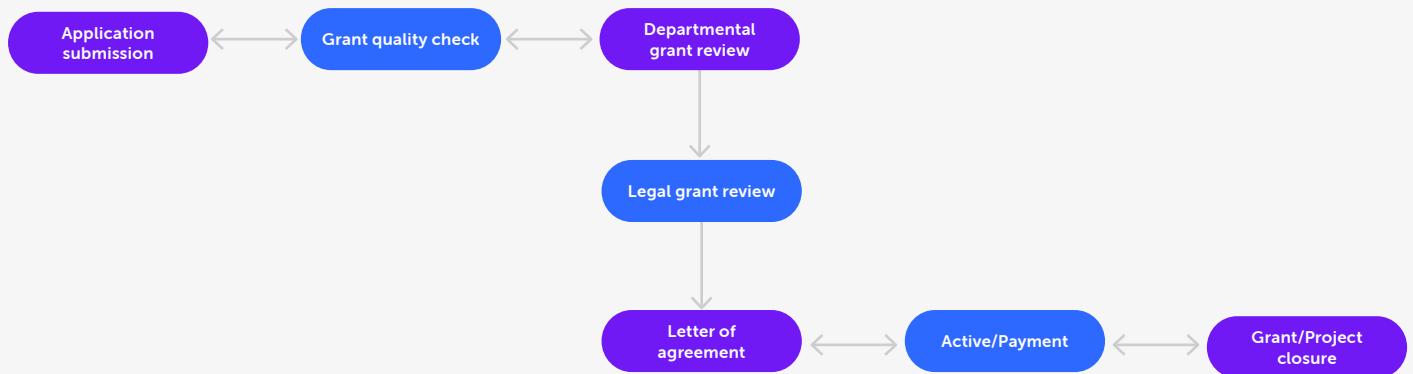

Ability to filter and develop real-time ad hoc reports

Quick access to key outcome metrics

Key performance indicators are visible on real-time Dashboards (eg, number of requests, approval rate, funding by grant type)

Corporate Funding workflow - Helping your business achieve its scientific and corporate support portfolio goals

iEnvision - The global medical affairs platform

The rapidly evolving medical affairs functional landscape and its growing importance within pharmaceutical companies is accompanied by an increasingly complex world of stakeholder and partner interactions, connections, and compliance requirements.

iEnvision is an advanced software platform supporting medical affairs-led business transformation, operational excellence, and connectivity – purpose-built to help strategically plan and manage medical evidence generation, grant programs, and communication activities.
